We have enhanced our pre-licensing classes with the addition of a computer lab. This will allow students to not only have study material to read and take home but also the chance to use an exam simulator product while in class. The Exam Simulator is a computer program designed to help you pass your pre-licensing examination on the first try. The Exam Simulator pinpoints your strengths and weaknesses by quizzing you with questions similar to those found on your actual exam. The questions will familiarize you with things you need to know to pass your exam. You'll be comfortable with the format of the test and confident that you'll be able to pass the test on the first try.
